compel army officers who insist on resigning to resort to the courts. In that event it is probable that the objects of resignation will be stated and also the inducements which are being offered by the private war material concerns to secure the expert officers of the army. Such a ruling of the Attorney-General would throw the whole odium of getting out of the army on the officers themselves.

Administration officials are deeply incensed over the conditions which have already been exposed. They point out that the State Department has resisted heretofore all efforts of Germany and her allies to stop the excess of manufacture and export of war munitions as an unneutral act. The State Department has resisted hard no right to limit or prevent the free trade of American merchants with the world. FOR YOUR HOME COMFORT

YOU need telephone service.

There are many reasons why this is so, but the one that stands out strongly just now is the one stated in the headline.

The summer is young and more hot days are comingbe prepared for them. Have telephone service installed now. When the sun beats down in all its strength you'll be glad you did.

What a genuine comfort it is to sit at home in the range of an electric fan with a telephone at your elbow. How comfortable it is to be able to send your voice where you will without leaving your "cool spot."

How much better it is to talk in comfort than to walk in discomfort-to talk in the shade than to walk in the sun.

Telephone service installed now will save hot, tiresome trips all during the summer for those who make the home what it is and will increase their comfort and your own.

Perhaps you are not aware that you can have telephone service in your Richmond home for less than five cents a day.

When shall we put the telephone in?
